

```

1) Public class JPattern {
    Public static void main (String[] args) {
        System.out.println("J A V V A");
        System.out.println("J AA V V AA");
        System.out.println("J J AAAAA V AAAAA");
        System.out.println("JJ A A V A A");
    }
}

```

2)

Public class rectangle {

Public static void main (String[] args) {

double width = 4.5;

double height = 7.9;

double area = width \* height;

double perimeter = 2 \* (width + height);

System.out.println("width:" + width);

System.out.println("Height:" + height);

System.out.println("Area:" + area);

System.out.println("Perimeter:" + perimeter);

}
